GEOMEGA RESOURCES INC.
Notes to Consolidated interim Financial Statements
February 29, 2016
(Unaudited, in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Geomega Resources Inc. (the “GéoMégA”) is incorporated under the Canada Business Corporations Act and is engaged in the acquisition, exploration and evaluation of mining properties in Canada. The Company’s shares are listed on the TSX Venture Exchange under symbol GMA. The address of the Company’s registered office and principal place of business is 75 De Mortagne Boulevard, Boucherville, Quebec, Canada, J4B 6Y4. These unaudited condensed interim financial statements were approved by the Company’s Board of Directors on April 29, 2016.

The Company has not yet determined whether its mineral properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to pursue the exploration and evaluation on its mining properties.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to twelve months from the end of the reporting period. For the nine month period ended February 29, 2016, the Company reported a loss of \$758,253 and an accumulated deficit of \$12,685,481 at that date. As at February 29, 2016, the Company had working capital of \$1,092,612 and cash and cash equivalents of \$1,587,042 of which \$370,957 is reserved for the flow-through expenses. Management estimates that the working capital will not be sufficient to meet the Company’s obligations and commitments and budgeted expenditures through February 28, 2017. These circumstances lend a significant doubt as to the ability of the Company to ensure its continuity of operation and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt upon the Company’s ability to continue as a going concern as described in the preceding paragraph, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

Any funding shortfall may be met in the future in a number of ways including but not limited to, the issuance of new equity or debt financing. While management has been successful in securing financing in the past, there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available to the Company or that they will be available on terms which are acceptable to the Company. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended May 31, 2015, which have been prepared in accordance with IFRS as issued by the IASB. (“Innord”). With this injection of additional funds, Innord, a wholly-owned subsidiary of GéoMégA, will receive a total of \$500,000 from the Fonds du Plan Nord, the SDBJ and the ARBJ (\$150,000 received as a February 29, 2016). A total of \$250,000 will be held in escrow pending TSX Venture Exchange approval of the final documentation. Upon receiving of all the funds, GéoMégA will control 96.1% of Innord.
- b) On April 6, 2016, GéoMégA and Innord Inc. announced that the two companies signed a Technology License Agreement (“TLA”) pursuant to which GéoMégA is granted a non-exclusive license to build and operate processing and separation facilities using the licensed technology (“Licensed Technology”). The Licensed Technology includes the patent applications for “A system and method for separation and purification of dissolved rare earth/precious metals elements/compounds” covered under patent application 2,893,793 (Canada) and 14/653,777 (U.S.A) and for “A system and a method for metallurgical extraction of REE and Nb from Ferro-Carbonatite” covered under patent application 62/180,663.
